PUBLISHERS' NOTE.

WE take pleasure in presenting this catalogue to the Educational people of New England and trust that it will be carefully examined.

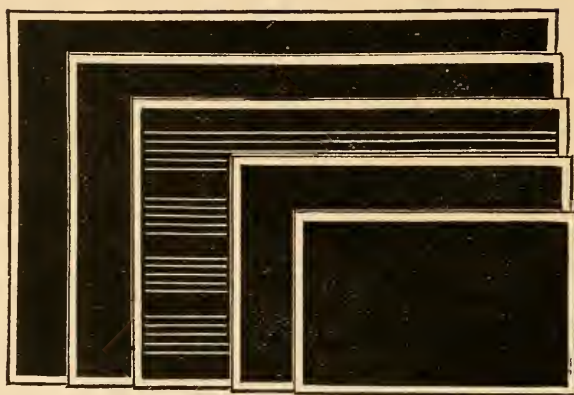

We believe that you will find that we cover a wider range of material than any other firm. Every item of importance is carefully indexed on the opposite page.

All orders sent by mail are at the risk of the people to whom they are addressed. We pack all goods very carefully, but cannot be responsible for loss or damage which may occur to them after leaving our hands.

Tarr Rubber Tip, 3-foot	1.50

THE "STANDARD" ALL WOOD REVOLVING BLACKBOARD SUPPORT, No. 1.

This support is made of nicely finished ash or oak, and is put together with hard wood keys in a very substantial manner. It can be put up by any person, and stands very firmly.

Made to fit all sizes of boards in regular stock.

Price \$6.00

Any size made to order at special price with casters \$0.75 extra.

Add the price of the support to whatever size board it is ordered to fit.

REVOLVING BLACKBOARD SUPPORT, No. 2. IRON FEET AND BRACES.

The iron feet are sufficiently heavy to insure *stability*. It is *rigid* and *substantial*.

There are no glued joints — all the parts are firmly *bolted* together, and are *taken apart for shipping*. It has lock-pins for holding the board in position. It may be revolved either way — on horizontal or perpendicular axle — as shown in the cut. The board touches the support only on these pins, and is noiseless.

Beneath the board is a shelf for crayons and erasers. It is a serviceable and ornamental piece of furniture for the school or lecture room. Adapted to any of our Standard boards.

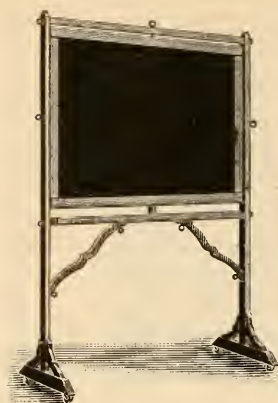

Price \$6.00

Casters, \$1.00 extra.

Add the price of the support to whatever size board it is ordered to fit.

REVOLVING BLACKBOARD SUPPORT, No. 3.

This Revolving Blackboard Support is all wood and of the same general appearance as the "No. 1" Blackboard Support, except that it is put together with Screw Eye Bolts, and can be set up by any person without the use of any tools whatever. The screws having been cut in the wood by machinery, they are readily turned in by hand. It is mounted on Casters, and in every way a good and substantial support.

Price of Support (to fit any of our Standard Boards) \$5.00

STATIONARY BLACKBOARDS.

With Supports on Casters, 3 Sizes.

PRICE.

2 x 3 feet	\$5.00
2½ x 3½ "	7.00
3 x 4 "	9.00

These boards are fastened firmly in grooves in the posts and rails of the support, doing away with the frame and all the revolving fixtures, thus cheapening its construction very much. It is made in the same style and strength of materials as the Support "No. 3," and of the sizes given it is readily turned on the casters in a small space. The boards and slating surface are the regular Standard.

These Supports are also furnished separate to customers who wish to mount **Stone Slates** cheaply on Casters. Send us the size and thickness of the Slate and we will send the Support to fit.

Price for any of above sizes \$4.00

“STANDARD” CLOTH BLACKBOARDS.

BLACKBOARD DIVIDERS.

These dividers are 18 inches long, and adjustable to hold School Crayons or the ordinary Lead Pencil. The head is fitted with a strong iron screw with sufficient surface to clamp it firmly in position. Each pair is furnished with an extra steel and rubber point, which may be inserted in either holder in place of a crayon. Price \$ 0.75
Blackboard Rulers, 3-foot each, \$ 0.50

SLATED CLOTH AND PAPER.

To supply a ready blackboard anywhere, this Slated Paper or Cloth has proved very acceptable. Teachers and popular lecturers find it INVALUABLE. The surface is as perfect as one of the "Standard" Blackboards, and it is PERFECTLY ELASTIC.

School officers and teachers who are unwilling to incur the trouble and expense of applying the Liquid Slating may secure a good and cheap black-board by tacking Slated Cloth or Paper to the wall, and nailing moulding or strips of wood around the edge for protection and ornament, or pasting it over defaced surfaces, the same as in paper-hanging.

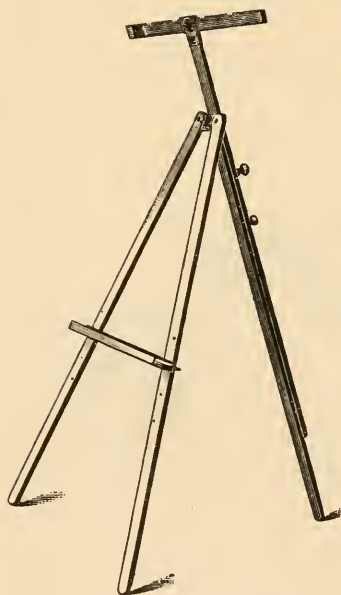

Widths as below, and of twelve yards length, in stock. Any length cut to order.

STAR BLACKBOARD EASEL AND MAP SUPPORT.

This Easel has our *Improved Iron Head*, so arranged as to take the FULL STRENGTH of the wood on the *face* of the casting, thus making it the strongest possible job; and is suited to class-rooms, lecture-halls, Sunday-schools, — wherever ECONOMY of SPACE is an object. Can be folded and put away like a board. Its portability, little space required when packed, make it *most convenient and economical*. It stands 6 feet high and is adapted to hold blackboards up to 3 x 4 size.

The Map Support Attachment is fastened to the back leg of the Easel by means of two thumb screws, and can be elevated NINE FEET from the floor. The arms also are adjustable in a strong iron crosshead, so as to fit any map or chart. The Map Support is readily taken off and set one side, when not wanted in connection with the Easel.

The Easel is sold separately.

THE “STANDARD” BLACKBOARD SLATING.

Nothing makes a better blackboard than good Liquid Slating, *properly applied* and *finished*. The objection to this (which has led to the adoption of cheap mixtures or costly stone slates, often with very unsatisfactory results) is (1) the high price of such slating, and (2) the great expense of its necessary application by an “*expert*.” The Standard Slating meets this objection, as it can be applied by anybody and, if smoothed with a cloth before it becomes quite hard, needs no other finishing.

PRICES.

Pints, \$1.00. Quarts, \$1.50. Half-Gallon, \$2.75. Gallon, \$5.00.

A gallon is sufficient for 300 square feet, giving it three coats.

THE “STANDARD” BLACKBOARD FILLER.

It has always been difficult when repairing blackboard surface to find a *filling* that could be easily and smoothly applied, and that would at the same time harden well, and retain its place permanently. This filler may be relied upon for filling cracks and holes, and for facing any marred or pitted surface that is to be coated with paint or liquid slating.

It is comparatively inexpensive, as all surplus can be scraped off and returned to the can for future use.

Put up in half-gallon cans.

Price per can \$1.00

“STANDARD” SLATE SIZING.

This sizing, applied to walls like paint and allowed to dry, makes a *foundation* nearly *as hard as stone*; sand-papered smooth and coated with liquid slating, it makes a very lasting blackboard.

Put up in half-gallon cans.

Price per can \$1.00

BRUSHES FOR APPLYING BLACKBOARD SLATING.

4-inch Common Brush \$0.75
6-inch Double Thick Brush 2.50

NATURAL SLATE BLACKBOARDS.

We control the output of one of the best quarries in the State of Pennsylvania.

This slate is noted for its *dark, unfading color*, which is one of the most important points to consider in the selection of slate blackboards.

It is the *hardest* slate in the market, and is of such a *fine texture* that it is susceptible of a very *high polish*, thus making a *fine* marking surface.

Prices quoted upon application.

HYLOPLATE.

Hyloplate is a product of wood pulp which, with cement, is made into large slabs by pressure. It therefore partakes of the desirable qualities of both paper and wood. Its manufacture resembles that of the paper car wheels that have proved so nearly indestructible. The slabs are uniform in thickness, black throughout, having either one or both surfaces prepared for use as desired. The writing surface is the liquid slating, and will not have to be renewed for many years.

Hyloplate will last as long as the schoolhouse, and anyone who can drive a nail can put it up.

We carry it in stock both 3 and 4 feet wide, and any length up to 12 feet. We cut to any size ordered; but a fraction of a foot is counted as a full foot.

Price per square yard \$2.00

OLMSTED ARTIFICIAL STONE BLACKBOARD.

We are the New England agents for this material, which makes the best blackboard in use to-day. It is cheaper and superior to natural slate in many ways. It is harder, of better color, has no seams or spots, and will last as long as the school building without repair. It is composed principally of stone and steel, and is welded to the wall by our own skilled workmen.

It has been in use in the West for the past twelve years. Such cities as Chicago, Cincinnati, Indianapolis, Pittsburg and Toledo are using it entirely.

It has just been specified by Messrs. McKim, Mead & White, the leading architects of the country, for the New Columbia College buildings that are being erected in New York City and are to be the finest college buildings in the world.

If you are building new schoolhouses write us and let us show you this material.

CRAYONS.

As the price of common crayons is constantly changing we are unable to make any fixed price on this item.

We carry a full line of Common White Round and Enameled, and can make lowest prices by the single box or by the case of 100 boxes.

ALPHA DUSTLESS CRAYON.

We claim for the Alpha Dustless Crayon that it has more points of excellence than any other crayon in the market. The following are some of the reasons for making the claims:—

It is as near dustless as is consistent with giving a clear and distinct mark.

It is at least six times more durable than the common chalk crayon, and if so, it must be only one-sixth as dusty.

It has NO SULPHATE OF LIME in its composition, but is composed of the least harmful materials which can be found for the purpose.

It has no Tale, Soapstone, or any of the Clay substances which tend to glaze the boards, but on the contrary it tends to keep the blackboards clean and free from grease and dirt, so as to require little or no washing.

It is as pleasant to handle as if made from ivory, not soiling the hands in the least, or making any unpleasant noise on the board.

It has steadily grown in favor with the best Educators and Boards of Education since its first introduction in 1877.

Price, per gross \$ 0.75

COLORED CRAYONS.

Assortment No. 1, per gross \$ 0.75

“ No. 2, “ “ \$ 0.60

Also SOLID COLORED CRAYON, put up one gross crayons in a box, all the different colors at lowest prices.

OUR IMPROVED CRAYON HOLDER.

LIGHT, ELASTIC, AND CONVENIENT TO HOLD.

It will take in any crayon of the ordinary size for school use. Prevents breaking and waste: is therefore economical and cleanly. For colored crayons it is especially desirable, and is appreciated by all who use it. Being soft wood it cannot harm the boards.

Price, per gross holders, filled \$ 1.25

SCHOOLBOOKS.

We furnish every schoolbook published at lowest jobbing prices, and send all orders promptly the day they are received.

We make a specialty of furnishing cities, towns and schools with all of their books, saving them a great deal of time and trouble. We have to-day on our books over 600 cities and towns who are sending us their entire orders, and we have yet to hear from one who is not perfectly satisfied.

We also carry a large stock of good second-hand books, which we sell at 55% discount from the wholesale list price.

We send all second-hand books subject to approval, and if not satisfactory may be returned. We buy new and second-hand books that are in good condition, and pay more for them than the publishers allow you in exchange. Our aim is to give satisfaction to our customers regarding prices and delivery of goods.

REBINDING.

We rebind schoolbooks in a thorough manner, and guarantee satisfaction. We are rebinding books for the largest cities and towns in Massachusetts and do better work for less money than any other house.

Our prices are as follows for cloth back and board sides : —

Readers, Arithmetics, Grammars, etc.,	\$0.12½ each.
Small Geographies	0.15 each.
Large Geographies	0.18 each.

The above style gives excellent satisfaction, but we will quote price on any style desired.

PAPER.

We have the largest line of school papers in this country.

We *rule and put up* more than *three times as much paper per day as any other school supply house.*

Our business is not confined to New England for we have contracts to supply such cities as NEW YORK, CHICAGO, BROOKLYN and many others with their school papers.

We have always on hand a full stock of CONGRESS CAP, LEGAL CAP, FULL and HALF SHEET LETTER, FULL and HALF SHEET PACKET and COMMERCIAL NOTE, JOURNAL, LEDGER, BILL, EXAMINATION, SCHOOL, PRACTICE, DRAWING, etc., etc.

Also PADS, TABLETS, COMPOSITION BOOKS, PRACTICE BOOKS, DRAWING BOOKS, NOTE BOOKS, BOOKKEEPING BLANKS, SPELLING BLANKS, etc., etc., in many different qualities and weights of paper.

OUR PRESIDENTS.

Showing fine half-tone cuts of Presidents MCKINLEY, CLEVELAND, GRANT and LINCOLN, with correct views of important places and events in their lives; also a sketch of the life of each President, compiled with great care and accuracy. Following is what the *School Board Journal* says of them :

“ Each tablet contains on the cover page a fine half-tone engraving of one of the Presidents, together with a biographical sketch. Also the scenes illustrating the important events of their lives. Educators who have examined these tablets are much pleased with them, and have placed orders in large quantities. The manufacturers are to be commended for their energy in preparing something new that is at the same time interesting and valuable.”

THE PLANETARY PENCIL POINTER

Adapted for use in Banks, Offices, Schools, Stores,
Draughting Rooms and Private Residences.

The Double Planetary System of Pencil Pointing.

The *only* system by which a *perfect point* can be made on *all kinds, grades and sizes of Lead Pencils, Slate Pencils, various Colored Pencils, Wax Crayons, etc., etc.* The double Planetary motion of the cutters absolutely prevents the breaking of the points. In construction the machine is simple, substantial, durable and neat. It requires no adjustment whatever, and is cleanly and rapid in its operation.

How to Sharpen a Pencil.

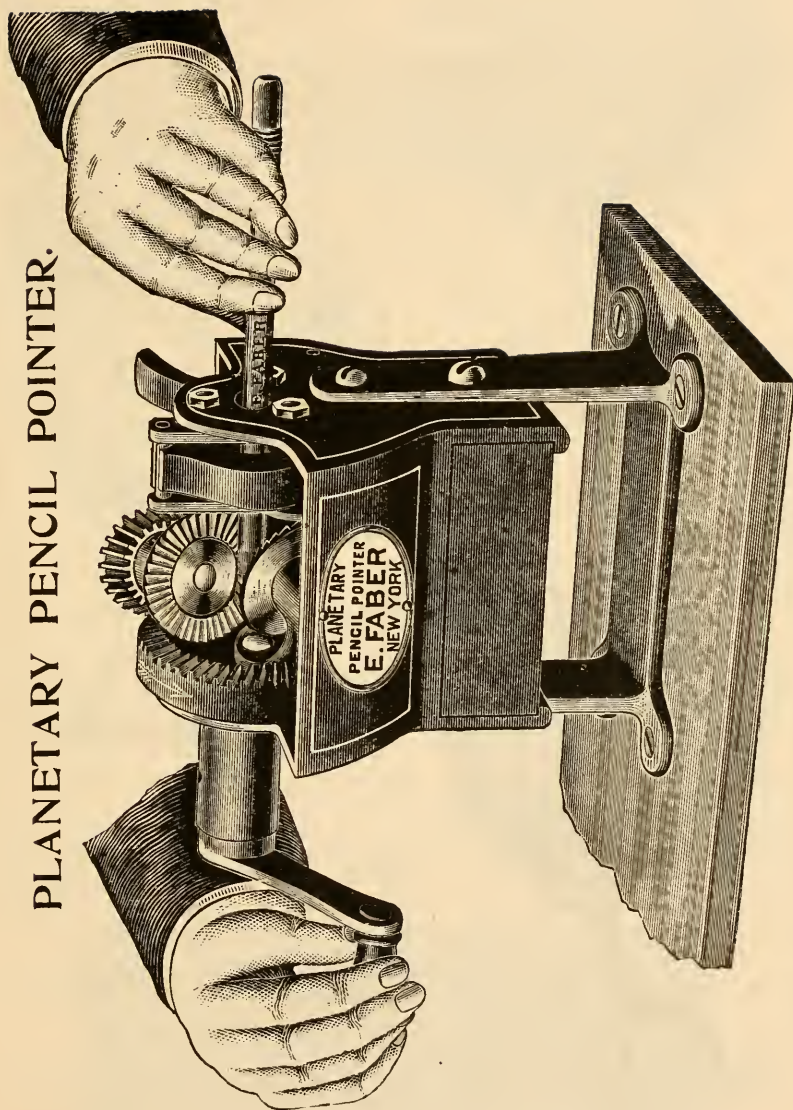

Insert the pencil in the holder, as shown in the illustration on the following page, by depressing the clamp; turn the handle to the right as indicated by the arrow, and push the pencil slowly between the cutters until the required point is obtained.

Keep Your Pencils Sharp.

After a pencil has once been pointed from its full size, four or five revolutions of the handle are sufficient to keep the point in good order.

Price \$3.50

W. & A. K. JOHNSTON'S

Most COMPLETE, HANDSOME and SUBSTANTIAL SCHOOL MAPS EVER PUBLISHED. LATEST AND BEST. No others that can compare with them.

From the great demand, they are CONSTANTLY AT PRESS, and no map is ever printed without being THOROUGHLY REVISED. They are new and authentic, showing the latest Geographical Discoveries and Political Changes in every part of the world.

The maps are printed in PERMANENT OIL COLORS.

Names are all engraved in plain ROMAN LETTERS. NO "KEY" required.

The maps are all engraved on COPPER PLATES, by which means lines and letters are shown with greater beauty and distinctness than in any other way. They are handsomely colored by States and Nations.

W. & A. K. JOHNSTON'S OUTLINE OR TEST MAPS.

FOUR-PLY VENEER CASE WITH MAP ROLLED UP.

The map is mounted on a spring roller, thus it is easily rolled up and should be kept so when not in use.

The case is only $3\frac{1}{2}$ inches wide, and when suspended over the blackboard takes up but little space, thus it is always ready for the class.

THE JOHNSTON MAP CASE.

The above cut represents the Map Case open and one of the maps drawn down. The whole or any of the maps can be instantly brought to view, and again rolled up out of the way, without the loss of a moment's time, and so simply that anyone who can raise or lower a window curtain can handle the maps in the case satisfactorily. Any map can be taken out easily without disturbing the others and another substituted if desired. Two Screw Eyes and two Hooks go with each case with which to attach it to the wall.

Case to contain eight maps, each 50 x 42 inches. Maps to be selected by purchaser from the large list of Maps on another page.

KINDERGARTEN TABLES.

Our best table is made *extra heavy*, the lines consist of deep channels sawed in the wood so that the surface is accurately divided into inch squares, and these channels are then filled with strips of walnut. The table is then finished, and the top given a fine polish.

These tables are made 15 inches wide, and are finished at the back with a beaded moulding. Each table is also made with a folding brace attached to the hinged leg so that they may be easily folded, and packed away in a very small space.

This is the Best Kindergarten Table Made.

Price per square foot \$1.00

Made in any length or special width wanted.

WHITEWOOD TABLES.

Finished in oil and shellac with squares plainly marked by a machine, made with folding legs and can be packed away in a very small place.

3 feet long, 16 inches wide, for 2 pupils \$4.00

SCHOOL FURNITURE.

WE ARE AGENTS FOR THE CELEBRATED

CHANDLER ADJUSTABLE SCHOOL FURNITURE.

Adjustable School Furniture is indispensable to the physical welfare of the pupil. Not simply the comfort, but the health is involved. Serious diseases of the spine and the eye are the logical outgrowth of ill-fitting desks and seats. Indisputable authorities can be quoted in support of this statement.

THE PALMER COX "BROWNIE" PRIMERS.

SIX BOOKS IN A SET.

For Kindergarten and Primary Grades.

These little books are intended to be read by the pupils in the schoolroom and at home; also to be read to the pupils by the teacher and parents. **They are intensely fascinating to the little ones.** Nothing like them has ever appeared.

The Primers each contain 32 pages of bright, new and attractive stories, by PALMER COX and E. VEALE, are printed on a fine quality of super-calendered paper, and are bound in a handsome illuminated cover, in five colors.

Price \$2.50 Per Hundred.

A NEW NATURE STUDY SONG BOOK.

SONGS OF HAPPY LIFE.

This new Song Book contains compositions, both original and selected, designed for use in public schools and in Bands of Mercy, and is very helpful as an aid to Nature Study.

In the schools it will be found of great value as a supplementary book to any course of music that may be in use. It is in touch with modern methods of practical school work.

There are a number of songs suitable for "Bird Day," "Arbor Day," "May Day," and other special occasions.

This book contains, besides the musical selections, readings, recitations, memory gems, etc., and also suggestions for entertainments in schools and Bands of Mercy.

SONGS OF HAPPY LIFE should be in every home, as well as in every schoolroom. Its influence will tend to develop a love for the beautiful in nature, and sympathy for every living creature.

The price of this book is thirty cents per copy. Postage eight cents.

Japanese Sea-Moss Covers, forty cents.

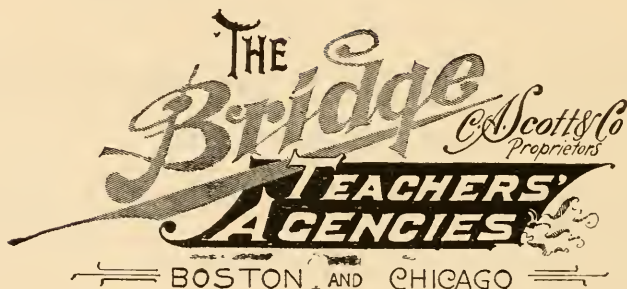

A discount will be made to anyone wishing to purchase by the quantity.

The price of the book does not represent its value; it is made especially low in order to give it a wide circulation, and thus better accomplish its purpose.

Special terms given to School Boards.

A NEW NATURE STUDY SONG BOOK.

“SONGS OF HAPPY LIFE.”

PRICE FOR SINGLE COPIES.

Stiff Board Covers (Nile Green), thirty cents per copy. Postage, eight cents.

Japanese Sea-Moss Covers, forty cents.

These are made of board, covered with specially prepared Japanese paper, into which the real sea-moss is pressed, producing a very unique and artistic effect.

Special terms will be given to School Boards. Correspondence with the publishers solicited. A discount will also be made to anyone who wishes to purchase by the quantity.

The price of the book does not represent its value; it is made especially low in order to give it a wide circulation, and thus better accomplish its purpose.

Among the contributors of compositions to this book are Mr. LEONARD B. MARSHALL, Supervisor of Music in the public schools of Boston, Mass., and HUGH A. CLARKE, Mus. D., Professor of the Science of Music in the University of Pennsylvania.

The music has all been carefully examined and approved by Mr. EMORY P. RUSSELL, Director of Music in the public schools of Providence, R. I., and Superintendent of the Summer School of the American Institute of Normal Methods, New England Conservatory of Music.

Dictionary

A THOROUGH REVISION OF THE UNABRIDGED,

The purpose of which has been not display nor the provision of material for boastful and showy advertisement, but the due, judicious, scholarly, thorough perfecting of a work which in all the stages of its growth has obtained in an equal degree the favor and confidence of scholars and of the general public.

IT IS THE BEST FOR TEACHERS AND SCHOOLS, BECAUSE

Words are easily found.

Pronunciation is easily ascertained.

Meanings are easily learned.

The growth of words easily traced,

and because excellence of quality rather than superfluity of quantity characterizes its every department.

GET THE BEST.

Journal of Education, Boston, says:—This edition of Webster's Dictionary, the International, is simply exquisite. The type is clear, and the arrangement of the different types gives fine effect; the pronunciation is modern and standard; the etymology is tersely, clearly put; the definitions are modernized, condensed, and complete; the illustrations are for use rather than for show, but are still artistic.
